Skills & Qualifications:

- Qualified Chartered Accountant (ICAI)
 - Strong knowledge of accounting standards, taxation, and audit
 - Analytical and problem-solving skills
 - Proficiency in accounting software and Excel
-

2. Practicing Chartered Accountant

Role Summary:

A Practicing CA provides professional services independently or through a firm, offering audit, taxation, compliance, and advisory services to multiple clients.

Key Responsibilities:

- Handle statutory, tax, and internal audits for clients
- File income tax and GST returns for individuals and businesses
- Provide business, financial, and compliance advisory services
- Represent clients before tax authorities and regulators
- Manage client relationships and ensure service quality
- Stay updated with regulatory and legal changes

Skills & Qualifications:

- CA qualification with Certificate of Practice (COP)
 - Client handling and communication skills
 - Strong knowledge of laws and regulations
 - Business development and advisory capability
-

3. Audit Manager

Role Summary:

The Audit Manager leads audit engagements, ensuring accuracy, compliance, and risk mitigation in financial reporting.

Key Responsibilities:

- Plan and manage statutory, internal, and special audits
- Supervise audit teams and review audit work papers
- Identify financial and operational risks
- Ensure compliance with auditing standards and laws
- Prepare audit reports and present findings to management
- Coordinate with clients and senior leadership

Skills & Qualifications:

- Qualified CA
 - Strong audit and risk assessment expertise
 - Leadership and team management skills
 - Knowledge of auditing standards and regulatory frameworks
-

4. Tax Manager

Role Summary:

The Tax Manager oversees direct and indirect tax planning, compliance, and litigation support to minimize tax risk and ensure regulatory adherence.

Key Responsibilities:

- Manage income tax, GST, and other statutory tax filings
- Develop tax planning strategies to optimize tax liability
- Handle tax assessments, audits, and notices
- Monitor changes in tax laws and ensure compliance
- Coordinate with consultants and tax authorities
- Maintain accurate tax documentation and reports

Skills & Qualifications:

- CA qualification with specialization in taxation
 - Strong understanding of tax laws and procedures
 - Analytical and strategic thinking
 - Attention to detail and compliance focus
-

5. Assurance Manager

Role Summary:

The Assurance Manager provides independent assurance on financial and operational processes to enhance reliability and stakeholder confidence.

Key Responsibilities:

- Manage assurance engagements and client relationships
- Evaluate internal controls and compliance frameworks
- Review financial statements and disclosures
- Ensure adherence to assurance and auditing standards
- Identify control gaps and recommend improvements
- Prepare assurance reports for stakeholders

Skills & Qualifications:

- Qualified CA
 - Strong understanding of assurance standards
 - Risk assessment and analytical skills
 - Excellent reporting and communication skills
-

6. Accounting & Compliance Manager

Role Summary:

Responsible for managing end-to-end accounting operations and ensuring statutory and regulatory compliance.

Key Responsibilities:

- Oversee accounting processes and monthly closures
- Ensure compliance with Companies Act, GST, Income Tax, and other laws
- Prepare financial statements and MIS reports
- Coordinate with auditors and regulators
- Maintain accounting controls and documentation
- Lead compliance audits and reviews

Skills & Qualifications:

- CA qualification
 - Strong accounting and compliance knowledge
 - Experience with ERP/accounting systems
 - Process management and coordination skills
-

7. Risk & Compliance Manager

Role Summary:

The Risk & Compliance Manager identifies, assesses, and mitigates financial and regulatory risks within the organization.

Key Responsibilities:

- Develop and implement risk management frameworks
- Monitor regulatory compliance across functions
- Conduct compliance audits and risk assessments
- Report risk exposure to senior management
- Ensure internal controls and governance standards
- Support regulatory inspections and audits

Skills & Qualifications:

- Qualified CA
 - Knowledge of risk management and compliance frameworks
 - Strong analytical and governance skills
 - Stakeholder management capability
-

8. Financial Reporting Manager

Role Summary:

Responsible for accurate, timely, and compliant financial reporting in line with statutory and accounting standards.

Key Responsibilities:

- Prepare financial statements as per Ind AS / IFRS
- Ensure accurate consolidation and disclosures
- Coordinate with auditors during audits
- Maintain reporting calendars and compliance timelines
- Analyze financial performance and trends
- Support management reporting and decision-making

Skills & Qualifications:

- CA qualification
 - Strong financial reporting and accounting standards knowledge
 - High attention to detail
 - Advanced Excel and reporting tools proficiency
-

9. Statutory Auditor

Role Summary:

A Statutory Auditor examines financial statements to provide an independent opinion on their accuracy and legal compliance.

Key Responsibilities:

- Conduct statutory audits under applicable laws
- Verify financial records and supporting documents
- Assess compliance with accounting standards and regulations
- Identify misstatements and control weaknesses
- Prepare audit reports and certifications
- Communicate audit findings to stakeholders

Skills & Qualifications:

- Qualified CA
 - In-depth auditing and accounting knowledge
 - Strong professional judgment
 - Ethical and independent mindset
-

10. Internal Auditor

Role Summary:

The Internal Auditor evaluates internal controls, processes, and risk management to improve operational efficiency and governance.

Key Responsibilities:

- Conduct internal audits across departments
- Evaluate internal control effectiveness
- Identify operational and financial risks
- Recommend process improvements
- Prepare audit reports and follow-up actions
- Support management in strengthening controls

Skills & Qualifications:

- CA qualification
 - Strong internal audit and process review skills
 - Analytical and investigative mindset
 - Good communication and reporting skills
-

11. Concurrent Auditor

Role Summary:

The Concurrent Auditor performs real-time audits, primarily in banks and financial institutions, to ensure ongoing compliance and accuracy.

Key Responsibilities:

- Review daily transactions and banking operations
- Ensure adherence to RBI and internal guidelines
- Detect irregularities and fraud risks
- Report exceptions on a timely basis
- Support regulatory inspections and audits
- Maintain detailed audit documentation

Skills & Qualifications:

- Qualified CA
 - Knowledge of banking operations and RBI norms
 - High attention to detail
 - Strong reporting and observation skills
-

12. Forensic Auditor

Role Summary:

A Forensic Auditor investigates financial frauds, disputes, and irregularities using accounting, auditing, and investigative techniques.

Key Responsibilities:

- Investigate financial frauds and misconduct
- Analyze complex financial data and transactions
- Collect and document audit evidence
- Prepare forensic reports for legal proceedings
- Support litigation and regulatory investigations
- Coordinate with legal and enforcement agencies

Skills & Qualifications:

- CA qualification
- Expertise in forensic accounting and investigation
- Strong analytical and investigative skills
- Knowledge of legal and regulatory processes

13. Finance Manager

Role Summary:

The Finance Manager is responsible for managing the organization's financial planning, accounting operations, reporting, and compliance to support business objectives.

Key Responsibilities:

- Oversee day-to-day finance and accounting operations
- Prepare budgets, forecasts, and variance analysis
- Ensure accurate monthly, quarterly, and annual financial reports
- Manage statutory compliance (GST, Income Tax, TDS, ROC)
- Coordinate with auditors, bankers, and consultants
- Support management with financial analysis and decision support

Skills & Qualifications:

- Qualified Chartered Accountant
 - Strong knowledge of accounting, taxation, and reporting
 - Experience with ERP systems and MIS reporting
 - Analytical and communication skills
-

14. Senior Finance Manager

Role Summary:

The Senior Finance Manager leads finance strategy execution, complex reporting, and team management while partnering with senior leadership.

Key Responsibilities:

- Lead finance team and oversee financial operations
- Drive budgeting, forecasting, and long-term financial planning
- Review financial statements and management reports
- Monitor cash flow, working capital, and cost optimization

- Act as a key business partner to senior management

Skills & Qualifications:

- CA with significant post-qualification experience
- Strong leadership and stakeholder management skills
- Advanced financial analysis and strategic planning expertise

15. Head of Finance

Role Summary:

The Head of Finance is responsible for the overall financial health, governance, and financial strategy of the organization.

Key Responsibilities:

- Define and implement financial strategy aligned with business goals
- Oversee accounting, finance, taxation, treasury, and compliance
- Lead budgeting, forecasting, and performance management
- Ensure strong internal controls and governance frameworks
- Support strategic initiatives such as expansions, investments, and funding
- Report financial performance to top management and board

Skills & Qualifications:

- Qualified CA
 - Strong strategic, leadership, and decision-making capabilities
 - Deep understanding of corporate finance and compliance
-

16. Financial Controller (FC)

Role Summary:

The Financial Controller ensures accurate financial reporting, robust internal controls, and compliance with accounting standards and laws.

Key Responsibilities:

- Oversee accounting records and financial statements
- Ensure compliance with Ind AS / IFRS and statutory requirements
- Manage audits and liaison with statutory auditors
- Implement and monitor internal financial controls
- Oversee closing processes and reporting timelines
- Support management with financial insights and risk analysis

Skills & Qualifications:

- CA with strong financial reporting background
 - Expertise in accounting standards and controls
 - High attention to detail and governance focus
-

17. Group Financial Controller

Role Summary:

The Group Financial Controller manages consolidated financial reporting and controls across multiple entities or group companies.

Key Responsibilities:

- Oversee group-level accounting and consolidation
- Prepare consolidated financial statements
- Ensure consistency in accounting policies across entities
- Manage group audits and regulatory reporting
- Strengthen group-wide internal controls and governance
- Support group leadership with financial insights

Skills & Qualifications:

- CA with consolidation and group reporting experience
 - Strong knowledge of Ind AS / IFRS
 - Ability to manage multi-entity structures
-

18. Accounts Manager

Role Summary:

The Accounts Manager manages daily accounting operations, ensuring accurate records and timely reporting.

Key Responsibilities:

- Supervise accounting entries and ledger maintenance
- Manage accounts payable and receivable
- Ensure timely bank reconciliations
- Support month-end and year-end closures
- Assist in statutory compliance and audits
- Maintain accounting documentation and controls

Skills & Qualifications:

- CA with hands-on accounting experience
 - Strong accounting principles knowledge
 - ERP and Excel proficiency
-

19. Senior Accounts Manager

Role Summary:

The Senior Accounts Manager oversees accounting teams and complex accounting issues while ensuring compliance and accuracy.

Key Responsibilities:

- Lead accounting team and review accounting records
- Handle complex accounting transactions
- Ensure compliance with accounting standards and laws
- Coordinate with auditors and tax consultants
- Prepare MIS and management reports
- Strengthen accounting controls and processes

Skills & Qualifications:

- Qualified CA
 - Strong technical accounting and team leadership skills
-

20. Chief Accountant

Role Summary:

The Chief Accountant is responsible for maintaining accurate financial records and ensuring compliance with accounting standards and internal policies.

Key Responsibilities:

- Oversee general ledger and financial records
- Ensure compliance with accounting standards and company policies
- Supervise accounting staff and processes
- Support financial reporting and audits
- Maintain internal controls over accounting activities
- Assist senior management in financial reviews

Skills & Qualifications:

- CA qualification
 - Strong accounting and control background
-

LEADERSHIP & CXO ROLES

21. Chief Financial Officer (CFO)

Role Summary:

- Strong statutory audit and reporting experience

- Leadership and client-handling skills
-

38. Internal Audit Manager

Role Summary:

The Internal Audit Manager evaluates internal controls, risk management, and governance processes to improve operational efficiency.

Key Responsibilities:

- Develop and execute internal audit plans
- Lead internal audit assignments across functions
- Evaluate internal controls and risk management systems
- Identify process gaps and recommend improvements
- Prepare internal audit reports and follow-up actions
- Coordinate with management and audit committees

Skills & Qualifications:

- CA with strong internal audit experience
 - Knowledge of risk-based auditing
 - Strong analytical and communication skills
-

39. External Auditor

Role Summary:

The External Auditor provides independent assurance on the accuracy and fairness of financial statements.

Key Responsibilities:

- Conduct statutory and external audits
- Verify financial records and supporting documents
- Test internal controls and compliance
- Identify misstatements and audit risks
- Prepare audit documentation and reports
- Communicate audit findings to stakeholders

Skills & Qualifications:

- Qualified Chartered Accountant
 - Strong accounting and auditing standards knowledge
 - Professional skepticism and integrity
-

40. Concurrent Auditor (Banking)

Role Summary:

The Concurrent Auditor performs real-time audits of banking operations to ensure compliance with RBI guidelines and internal policies.

Key Responsibilities:

- Review daily banking transactions and operations
- Ensure adherence to RBI norms and bank policies
- Identify irregularities, frauds, and control lapses
- Report exceptions on a timely basis
- Support RBI inspections and statutory audits
- Maintain detailed audit documentation

Skills & Qualifications:

- Qualified CA
 - Strong knowledge of banking operations and RBI regulations
 - High attention to detail
-

41. Systems Auditor

Role Summary:

The Systems Auditor evaluates IT systems, controls, and processes to ensure data integrity, security, and operational effectiveness.

Key Responsibilities:

- Audit IT systems and application controls
- Review access controls, data security, and system integrity
- Evaluate IT general controls and automated processes
- Assess system risks and recommend improvements
- Coordinate with IT teams and management
- Prepare system audit reports

Skills & Qualifications:

- CA with systems audit experience
 - Knowledge of IT controls and ERP systems
 - Analytical and technical mindset
-

42. SOX Auditor

Role Summary:

The SOX Auditor ensures compliance with the Sarbanes-Oxley Act by evaluating internal controls over financial reporting.

Key Responsibilities:

- Test internal controls under SOX framework
- Document control design and operating effectiveness
- Identify control deficiencies and remediation plans
- Coordinate with process owners and management
- Support internal and external SOX audits
- Maintain SOX documentation and compliance reports

Skills & Qualifications:

- Qualified CA
 - Strong understanding of SOX and ICFR
 - Process documentation and testing expertise
-

43. Process Auditor

Role Summary:

The Process Auditor reviews business processes to identify inefficiencies, risks, and control gaps.

Key Responsibilities:

- Conduct process audits across departments
- Map processes and identify improvement areas
- Evaluate operational controls and SOP adherence
- Recommend process enhancements and efficiencies
- Prepare process audit reports
- Follow up on implementation of recommendations

Skills & Qualifications:

- CA with process audit experience
 - Strong process analysis and documentation skills
-

44. Compliance Auditor

Role Summary:

The Compliance Auditor ensures adherence to regulatory, statutory, and internal compliance requirements.

Key Responsibilities:

- Conduct compliance audits and reviews
- Verify adherence to laws, regulations, and internal policies
- Identify compliance risks and violations
- Prepare compliance audit reports
- Support regulatory inspections and audits
- Advise management on compliance improvements

Skills & Qualifications:

- Qualified CA
 - Strong regulatory and compliance knowledge
 - Attention to detail and governance focus
-

45. Quality Review Auditor

Role Summary:

The Quality Review Auditor evaluates audit quality, methodologies, and compliance with professional standards.

Key Responsibilities:

- Review audit files for quality and standard compliance
- Assess adherence to auditing standards and firm policies
- Identify gaps in audit execution and documentation
- Provide feedback and recommendations to audit teams
- Support audit quality improvement initiatives
- Assist in regulatory and peer reviews

Skills & Qualifications:

- CA with strong audit and quality review experience
- In-depth knowledge of auditing standards
- Strong evaluation and reporting skills

FORENSIC, RISK & COMPLIANCE ROLES

46. Forensic Accountant

Role Summary:

The Forensic Accountant investigates financial irregularities, frauds, and disputes by analyzing financial records and evidence.

Key Responsibilities:

- Analyze financial data to detect fraud and irregularities
- Conduct forensic accounting investigations
- Examine transactions, books, and supporting documents
- Prepare forensic reports and documentation
- Support legal proceedings and regulatory investigations
- Coordinate with legal teams and enforcement agencies

Skills & Qualifications:

- Qualified Chartered Accountant
 - Strong forensic accounting and analytical skills
 - Attention to detail and investigative mindset
-

47. Forensic Audit Manager

Role Summary:

The Forensic Audit Manager leads forensic investigations and manages teams handling complex fraud cases.

Key Responsibilities:

- Lead forensic audit assignments and investigations
- Design investigation approach and scope
- Supervise forensic audit teams and review findings
- Identify fraud risks and control weaknesses
- Prepare forensic reports for management and legal use
- Liaise with legal counsels, regulators, and senior management

Skills & Qualifications:

- CA with strong forensic audit experience
 - Leadership and investigation management skills
 - Knowledge of legal and regulatory processes
-

48. Fraud Risk Analyst

Role Summary:

The Fraud Risk Analyst identifies, assesses, and mitigates fraud risks within business operations.

Key Responsibilities:

- Analyze transactions and data for fraud indicators
- Conduct fraud risk assessments and monitoring
- Develop fraud detection and prevention frameworks
- Investigate suspected fraud cases
- Prepare fraud risk reports and dashboards
- Recommend fraud control and prevention measures

Skills & Qualifications:

- Chartered Accountant
 - Strong data analysis and risk assessment skills
 - Knowledge of fraud prevention techniques
-

49. Risk Advisory Consultant

Role Summary:

The Risk Advisory Consultant provides advisory services on risk management, internal controls, and governance frameworks.

Key Responsibilities:

- Assess business, financial, and operational risks
- Evaluate internal control systems and processes
- Advise clients on risk mitigation strategies
- Support risk transformation and compliance projects
- Prepare risk assessment reports and presentations
- Coordinate with clients and stakeholders

Skills & Qualifications:

- CA with risk advisory experience
 - Strong analytical and consulting skills
 - Knowledge of enterprise risk frameworks
-

50. Enterprise Risk Manager (ERM)

Role Summary:

The Enterprise Risk Manager designs and implements enterprise-wide risk management frameworks to support organizational objectives.

Key Responsibilities:

- Develop and maintain ERM frameworks

- Identify and assess strategic, operational, and financial risks
- Monitor risk exposure and mitigation plans
- Report risk metrics to senior management and board
- Integrate risk management into business strategy
- Support regulatory and governance requirements

Skills & Qualifications:

- Qualified CA
 - Strong knowledge of ERM frameworks (COSO, ISO)
 - Strategic thinking and governance skills
-

51. Compliance Officer

Role Summary:

The Compliance Officer ensures adherence to regulatory, statutory, and internal compliance requirements.

Key Responsibilities:

- Monitor compliance with laws and regulations
- Develop and update compliance policies and procedures
- Conduct compliance audits and reviews
- Handle regulatory filings and disclosures
- Support regulatory inspections and audits
- Train employees on compliance requirements

Skills & Qualifications:

- Chartered Accountant
 - Strong regulatory and compliance knowledge
 - Attention to detail and governance orientation
-

52. Corporate Governance Manager

Role Summary:

The Corporate Governance Manager ensures effective governance practices, board compliance, and ethical standards within the organization.

Key Responsibilities:

- Ensure compliance with corporate governance requirements
- Support board and committee operations
- Monitor adherence to Companies Act and SEBI regulations
- Develop governance policies and frameworks

- Coordinate board reporting and disclosures
- Advise management on governance best practices

Skills & Qualifications:

- CA with strong governance and compliance experience
 - Knowledge of corporate laws and regulations
 - Strong coordination and communication skills
-

53. AML / KYC Specialist

Role Summary:

The AML / KYC Specialist ensures compliance with anti-money laundering and know-your-customer regulations.

Key Responsibilities:

- Conduct customer due diligence and KYC reviews
- Monitor transactions for AML red flags
- Investigate suspicious transactions and activities
- File regulatory reports (STR, CTR)
- Ensure compliance with RBI and AML regulations
- Support AML audits and regulatory inspections

Skills & Qualifications:

- Qualified Chartered Accountant
- Knowledge of AML / KYC laws and frameworks
- Strong analytical and investigative skills

BANKING & FINANCIAL SERVICES ROLES

54. Banking Accountant

Role Summary:

The Banking Accountant manages accounting, reconciliation, and regulatory reporting for banking and financial operations.

Key Responsibilities:

- Maintain accurate accounting records for banking transactions
- Perform daily bank reconciliations and ledger reviews
- Prepare financial statements and regulatory reports
- Ensure compliance with RBI guidelines and banking regulations
- Support statutory, internal, and concurrent audits
- Coordinate with branches and operations teams

Skills & Qualifications:

- Qualified Chartered Accountant
 - Strong knowledge of banking accounting and regulations
 - Attention to detail and compliance focus
-

55. Credit Analyst

Role Summary:

The Credit Analyst evaluates creditworthiness of borrowers and supports lending decisions through financial and risk analysis.

Key Responsibilities:

- Analyze financial statements and cash flows of borrowers
- Assess credit risk and repayment capacity
- Prepare credit appraisal and sanction notes
- Monitor loan accounts and covenant compliance
- Conduct industry and borrower risk analysis
- Support credit committees and management

Skills & Qualifications:

- CA with strong financial analysis skills
 - Knowledge of lending products and credit risk
 - Analytical and decision-support capability
-

56. Loan Audit Officer

Role Summary:

The Loan Audit Officer audits loan portfolios to ensure compliance with lending policies, RBI norms, and internal controls.

Key Responsibilities:

- Audit loan documentation and sanction processes
- Verify compliance with RBI and internal credit policies
- Review asset classification and provisioning

- Identify irregularities and control gaps
- Prepare audit reports and follow-up actions
- Support regulatory inspections and reviews

Skills & Qualifications:

- Qualified CA
 - Knowledge of banking audits and loan operations
 - Strong observation and reporting skills
-

57. Treasury Manager

Role Summary:

The Treasury Manager manages liquidity, investments, and financial risk to optimize returns and ensure funding stability.

Key Responsibilities:

- Manage cash flow, liquidity, and funding requirements
- Oversee investments, borrowings, and interest rate risk

Skills & Qualifications

- CA with 8–15 years of global finance experience
- Expertise in consolidation and international compliance
- Strong leadership and stakeholder management skills

Career Scope

- Chief Financial Officer (Global)
 - Regional Finance Director
-

81. IFRS Consultant

Role Overview

An IFRS Consultant advises organizations on adoption, implementation, and interpretation of International Financial Reporting Standards.

Key Responsibilities

- Guide companies in IFRS transition and implementation
- Interpret complex IFRS standards and provide advisory notes
- Convert financial statements from local GAAP to IFRS
- Support audits, disclosures, and regulatory filings
- Train internal finance teams on IFRS updates
- Assist in IFRS impact assessments and policy documentation

Skills & Qualifications

- CA with strong IFRS expertise
- Experience in advisory or Big 4 consulting preferred
- Analytical and documentation skills

Career Scope

- Technical Accounting Head
 - Global Accounting Policy Manager
-

82. US GAAP Specialist

Role Overview

A US GAAP Specialist ensures accurate financial reporting and compliance with US accounting standards, primarily for US-based or listed companies.

Key Responsibilities

- Prepare and review financial statements under US GAAP
- Handle SEC reporting (10-K, 10-Q) support
- Manage GAAP conversions from IFRS or Indian GAAP

- Assist in SOX compliance and internal controls
- Coordinate with US auditors and regulatory teams
- Interpret complex accounting topics (revenue, leases, equity)

Skills & Qualifications

- CA with strong US GAAP knowledge
- Experience with US clients or MNCs
- Familiarity with SOX and SEC requirements

Career Scope

- US Accounting Manager
 - Financial Reporting Director
-

83. Overseas Audit Manager

Role Overview

An Overseas Audit Manager leads audits for international clients, ensuring compliance with global auditing standards and regulatory frameworks.

Key Responsibilities

- Plan and manage international audit engagements
- Lead audit teams across multiple locations
- Ensure compliance with ISA and local regulations
- Review audit reports and working papers
- Coordinate with overseas clients and regulators
- Support cross-border group audits and consolidations

Skills & Qualifications

- CA with audit leadership experience
- Strong knowledge of international auditing standards
- Team management and client-handling skills

Career Scope

- Audit Partner
 - Global Assurance Leader
-

84. Global Tax Consultant

Role Overview

A Global Tax Consultant advises multinational organizations on international taxation, cross-border structuring, and compliance.

Key Responsibilities

- Advise on international tax planning and structuring
- Handle transfer pricing documentation and compliance
- Manage cross-border tax filings and reporting
- Support double taxation avoidance and treaty benefits
- Assist in global tax audits and disputes
- Monitor global tax law changes (BEPS, OECD guidelines)

Skills & Qualifications

- CA with specialization in international taxation
- Strong understanding of DTAA, transfer pricing, and BEPS
- Research and advisory skills

Career Scope

- Global Tax Head
- International Tax Partner

85. Management Consultant

Role Overview

A Management Consultant works with organizations to improve overall business performance by analyzing operations, identifying problems, and implementing strategic and operational solutions.

Key Responsibilities

- Analyze business models, organizational structure, and management processes
- Identify operational inefficiencies and recommend improvement strategies
- Support leadership in decision-making and change management
- Conduct market research, benchmarking, and performance analysis
- Prepare business cases, reports, and presentations for senior management
- Assist in transformation projects such as restructuring and turnaround
- Coordinate with cross-functional teams and stakeholders

Skills & Qualifications

- CA / MBA / equivalent professional qualification
- Strong analytical, problem-solving, and presentation skills
- Experience in consulting or corporate strategy preferred

Career Scope

- Senior Management Consultant
 - Engagement Manager
 - Partner / Director
-

86. Business Consultant

Role Overview

A Business Consultant advises organizations on improving business processes, profitability, compliance, and growth strategies across various functions.

Key Responsibilities

- Evaluate existing business operations and financial performance
- Identify gaps in processes, controls, and compliance
- Recommend solutions for cost optimization and revenue enhancement
- Assist in business planning, budgeting, and forecasting
- Support implementation of systems, policies, and SOPs
